

PROGRAMMABLE KETTLE

Looking for a kettle to enjoy all your hot drinks at ideal temperature?

Precise with its digital screen, select the temperature to the degree required with the kettle H.Koenig BOE40.

The kettle adapts to all your preparation thanks to its digital temperature selection from 40° to 100° (in increments of 5 degrees): tea (green, , black, white, scented...), infusions, coffee, milk powder for babies, instant soups, etc.

Its keep warm function will keep the water at the chosen temperature

Easy to use thanks to the easy push open lid, 360-degree base and water gauge, you can easily reposition and fill in the BOE40

For more safety, the BOE40 has an automatic shutdown system

Precise and design, for an everyday easy use
