## ice cream maker

make your favourite homemade ice cream flavours all year long

Enjoy delicious sorbets and ice creams in less than 40 minutes with the HF180 turbine.

Based on professional ice cream turbine technology, the machine has a powerful and robust integrated cooling unit for perfect control of low temperatures.

Easy to use, pour the mixture into its removable and non-stick 1-litre bowl, start the turbine through its digital display and it will do the rest. Once the ice cream is ready, serve it with the provided ice cream spoon.

Equipped with an automatic shutoff and keep cold function, you can start the machine at any given time.

Prepare homemade ice cream all year round with the HF180 turbine.
