

vertical ice cream maker

make your favourite homemade ice cream flavours

Prepare your favourite homemade ice cream and sorbets in less than 40 minutes with the HF340 turbine.

User-friendly and built with the same technology used in professional ice cream turbines, the HF340 has a powerful and robust built-in cooling unit for a perfect control of low temperatures.

Pour the mixture into its 2 litres non-stick removable bowl, start the preparation on its digital screen and the machine will do the rest to please everyone! Once the ice cream is ready, serve it with the provided ice cream spoon.

No need to monitor, with its automatic shutoff and keep cold function, you can start the turbine at any time.

Prepare homemade ice creams and sorbets with fresh, natural and additive free products!
