## filter coffee machine with grinder

### Enjoy all the flavors of ground coffee

Enjoy the taste of freshly ground coffee beans with the MGX90 coffee machine. The MGX90 combines the functions of a filter coffee machine and a coffee grinder. With a 180 g bean container and a 1.4 litre water tank, you can prepare up to 10 cups in one program.

Adjust the grind size and strength of your coffee to your liking! Also programmable with its intuitive LCD display, you can set the time you want it to start. It then keeps your coffee hot for 40 minutes before automatically switching off.

The anti-drip system allows you to have a cup of coffee at any time, even before the end of the brewing cycle. Cleaning is easy thanks to the removable parts. A brush is also included.

With its elegant and modern stainless-steel design with champagne tones, it will easily blend into your home. Start the day right with the MGX90!
