

multifunction electric slow cooker

Effortless cooking

The H.Koenig SLCOOK30 multifunction electric slow cooker ensures balanced, simple and tasty meals with its slow cooking and digital timer. Versatile, use one of its 7 pre-programmed functions: cooking to sear and grill, slow cooking, steam cooking, slow cooker, oven and choose the temperature from 60 °C to 220 °C.

Practical, you can prepare all your dishes in advance with its warming function (which can keep your meals warm for up to 12 hours). Useful, thanks to its removable 5.6 litres aluminium bowl and non-stick coating, food does not stick to the walls of the container, cooking is homogeneous and you can easily transfer and drain your preparations.

In addition to its versatility, the SLCOOK30 has an elegant design with a digital display and backlit control buttons.
