

VERTICAL SLOW JUICER

The GSX12 is based on a soft pressure technology with slow speed and a helix without blades.

This new H.Koenig technology of vertical slow juicer preserves the natural taste, vitamins and nutrition of the fruits and vegetables by smoothly squeezing and pressing them instead of grinding them like former juicer devices.

It gives you an extra 30% of juice compared to a traditional juicer.

With the H.Koenig vertical slow juicer, you will preserve fruits and vegetables and obtain more juice!

Features

- Power: 400W
