

COOKING MACHINE

Are you looking for an intelligent kitchen robot that will help you realize excellent recipes in no time?

To sear, simmer, fry, boil or steam... but also mix, crush, blend or make dough... The H.Koenig kitchen robot HKM1032 can do all that, and he'll do it for you!

Thanks to its programming system « Easy Pad Control », you can realize hundreds of recipes with fingertips. With its LCD display, a temperature adjustable between 0°C and 120°C, its 9 speeds, turbo function and an included timer all your preparations will be a success.

The HKM1032 is a complete and efficient robot with its various accessories as the cooking basket, the food steamer, the butterfly whisk, the spatula, the splashguard lid, the blade protection and the measuring cup.

The HKM1032 H.Koenig: to the discovery of new cooking talents!
