

Bagless vacuum cleaner Silence +

SILENCE +

Looking for a bagless vacuum cleaner that is both powerful and silent? This is now possible with the H.Koenig SLC80 vacuum cleaner.

Forget clogged dust bags that depress the aspiration, the SLC80 uses its cyclones to propel dust and dirt in order to send them directly to the transparent container.

Its suction power and HEPA filter will help you fight against mites and allergies on all surfaces. Very discreet with its multi-cyclonic silent technology: you'll forget you're using it!

Its removable transparent container disassembles easily, so that you can empty it in no time.

The bagless H.KOENIG vacuum cleaner SLC80 Silence + : the power of silence !
