

HKoenig

warm110

oil filled heater

Ideal to keep your rooms warm

Its ceramic heating elements and 1500 W power allow for the fan heater to heat up faster than a conventional heating system, consume less energy and ensure greater safety for users.

This heater also has a cold ventilation function to ventilate and renew the air in your rooms.

The overheat protection and the WARM110 fail-safe switch ensure that the radiator is automatically switched off in the event of danger.

Its compact size makes it easy to store and transport.

The WARM110 is powerful and discreet, it will find its place anywhere in your home.
